

Americans eat approximately 100 acres of pizza a day, about 350 slices per minute! And that love affair extends to dessert... dessert pizza, that is! One of the fastest growing trends in foodservice, dessert pizza is building a fan base... Restaurant penetration is up almost 20% since 2010.

- ✓ Three of the top 10 weeks of pizza consumption occur in January, with two of the biggest nights just around the corner: The big game in January tops the list, with New Year's Eve a close second.
- ✓ **Datassential**® forecasts that ISB prepared meals will outpace foodservice growth. Rotating weekend menu selection will build shopper interest... so never forget dessert!

Let **Lawrence Foods** dessert pizza kits deliver more dough to your bottom line!
